

Shudy Camps Parish Council

9 September 2021

**Call for Action!** Our proposed “Community Fibre Partnership” with Openreach to bring fibre broadband to Shudy Camps should soon be approved by the Government. There are 107 premises in Shudy Camps that could benefit, and Openreach need to get over 90 pledges to qualify for enough voucher funding to proceed.

To qualify users must commit to taking out a full fibre service to their premises, within 2 weeks of it becoming available, that at least doubles the speed that they receive at present (as measured by the BT speed checker), or a minimum of 30Mbps. You will also have the option of upgrading your broadband package with speeds of up to 1000 Mbps (1 billion bits per second, or a Gigabit). To decide if 'Fibre to the premises' is right for you please:

- i) check the speed you currently get using the BT Speed checker at <https://support.bt.com/fix>
- ii) check what you would need to pay for the service from your preferred Internet Service Provider (e.g. BT, Virgin, Sky)

Time is short so we are helping Openreach by collecting customer information. If you would like to get fibre please complete and return the attached form, physically via the information point in Main Street, or post an photo to [dave.elliott@shudycamps.org.uk](mailto:dave.elliott@shudycamps.org.uk) or [john.haine@shudycamps.org.uk](mailto:john.haine@shudycamps.org.uk) or via WhatsApp; or just email the info to either of us. (You will also be able to pledge online when the Openreach site goes live.)

**Time is short, so if you want full fibre service, don't delay!**

**PLEASE REPLY BY 20 SEPTEMBER 2021**
